TOMAS MUTSAERS

About me

As a photographer specializing in portrait and documentary work, I find the creative process most rewarding when I can collaborate closely with clients. Whether the assignment is loosely framed or requires a more defined focus, I appreciate the challenge each brings. I enjoy working in a team, where different perspectives come together to shape the project. I work with companies and institutions such as Boijmans van Beuningen, de Volkskrant, Friends for Brands, De Ronners and European Broadcasting Union.

Based in Rotterdam, NL
